Atto, bought one by one
250 users, list prices

A leading pharma MES
top 5 in analyst rankings; batch records only; 10 to 24 months to go live

₹12.6 crore to ₹14.4 crore: ₹7 to ₹8 crore in the first year, then 20% of it every year. Servers, a QMS and audit tools come on top.

What a 250-user plant saves

₹90 lakh a year

In what can be counted, at 2,400 batches a year: QA review by exception, corrections and deviations avoided, operators' time, paper, printing and storage.

ATTO VICTORY LANE

Five seats a year

World Class companies, first come, first served; never two direct competitors. Your five biggest performance blockers solved through Atto, with Siddhi LLC's CEO every month. Your year measured against your start and your competitors, then published.

Prices a year, plus 18% GST. Market: Atto Pharma's estimate for a leading pharma MES at one plant in India, ₹7–8 crore for the licences and implementation in the first year, then 20% of that every year; no vendor is named, and your own quotes may differ. Every figure, assumption and source is in the companion paper, *priced and valued*.
